BISMARK OBUOBI

BSc Information Technology Student | Aspiring IT Professional | Software Engineer

Accra, Ghana | bismarkobuobi19@gmail.com | +233 24 210 7509

Portfolio: https://bismarkobuobi.live | **GitHub**: https://github.com/kev-69

PROFESSIONAL SUMMARY

Results-driven Information Technology student with practical experience in web application development, systems administration, IT support, and backend engineering. Skilled in maintaining production systems, modernizing legacy applications, and deploying and managing self-hosted infrastructure on Linux and embedded hardware. Demonstrated ability to learn quickly, solve technical problems, and work effectively in team environments, with a strong interest in building reliable, real-world software products.

EDUCATION

Bachelor of Science (BSc), Information Technology

University of Ghana, Legon — Expected Graduation: 2026

TECHNICAL SKILLS

- Programming: Java, JavaScript, TypeScript, SQL, NoSQL
- Web Development: React, Next.js, REST APIs
- Backend Technologies: Node.js, Express.js, Spring Boot
- Databases: PostgreSQL, MySQL, MongoDB
- Systems & Infrastructure: Linux, Server Administration, Networking, Raspberry Pi
- Tools: Git, GitHub, Docker, Microsoft Office Suite
- Other: System Analysis, Troubleshooting, Software Maintenance

PROFESSIONAL EXPERIENCE

IT Intern — Amasaman Municipal Hospital *September 2024 (4 Weeks)*

- Supported the hospital's IT unit with day-to-day technical operations.
- Assisted with troubleshooting computer systems and user support requests.
- Gained experience in IT infrastructure, system administration, and organisational technology operations.

PROJECT EXPERIENCE

University of Ghana Gym Web Application

- Participated in the development of a web-based solution for gym operations and user management.
- Contributed to application functionality and system improvement efforts.
- Responsible for maintaining the existing production web application.

MyKonnectCard Web Application

- Responsible for maintaining and modernising an existing production web application.
- Worked on bug fixes, feature enhancements, performance improvements, and codebase modernisation.
- Collaborated with stakeholders to improve system reliability and user experience.

Raspberry Pi Projects & Self-Hosted Services

- Built and deployed backend services on Raspberry Pi hardware.
- Developed practical skills in Linux administration, networking, server deployment, and system management.

LEADERSHIP & CORE COMPETENCIES

- Strong communication and interpersonal skills
- Analytical thinking and problem solving
- Ability to work independently and collaboratively
- Fast learner with a growth mindset
- Attention to detail and organisational skills
- Adaptability and willingness to learn new technologies
